About Me

I am Tanvirul Islam Talha, a 10th Trimester BBA student at United International University. I am passionate about business, finance, and data-driven decision-making.

Throughout my academic journey, I have developed analytical, technical, and problem-solving skills by working on various projects related to financial analytics and web development.

I enjoy learning new technologies and applying analytical approaches to solve real-world problems.

My experiences have helped me strengthen my teamwork, communication, and adaptability skills, preparing me for future professional opportunities.
